

I installed v1.0.0 on a v7.04 Hubzilla instance.

This is the Admin Setting for Cart. As you can see there is a line down the page and it does not go away while I am in the module.

Cart Settings

Enable Test Catalog

Enable Manual Payments

Base Merchant Currency
CAD - Canadian Dollar

Enable Manual Cart Module

Enable Order/Item Options

Enable Paypal Button Module (API-v2)

Use Production Key

Paypal Sandbox Client Key

Paypal Sandbox Secret Key

Paypal Production Client Key

This is the view from a User perspective for a Product. The **Item Options** and **Item Subscriptions** don't work. The screen changes but nothing come up and no error message appears
